About KaiVoy

Fujian Kaivoy Technology Co., Ltd. was established in August 2022 in Longyan, Fujian, China. We are an international supplier with full import-export qualifications, working with a network of partner factories across Fujian, Shandong, Guangdong and Yunnan.

Our role is to remove friction from sourcing: one team handles supplier selection, drawing confirmation, in-process inspection, export packing and documentation, so the buyer deals with one contact instead of five factories.

What we supply

- Machinery & Attachments — buckets, brooms, rippers, grippers, grading beams, pallet forks, quick couplers and cross-brand adapters for 1-8 t excavators and skid steer loaders
- Building Materials — film-faced and bare formwork plywood, aluminium windows, sanitary ware
- Micro-Electronics & Electrical — proximity sensors, gear motors, chains, waterproof connectors
- Heritage & Crafts — preserved flowers, calligraphy sets, Naxi cultural artworks

How we work

Every attachment order starts from a technical confirmation, not a price list. We ask for your carrier machine model, coupler standard, working width and duty cycle; our engineer returns a drawing and a confirmed specification, and only then does a formal quotation follow. This is why our offers rarely need to be revised after the order is placed.

Standard lead time is 25-35 days after drawing approval. Batch orders of 20 units or more can be built to non-standard interfaces.

Excavator Buckets • 1 – 8 tonnes

Three bucket families cover the full mini-excavator range. All wear surfaces are cut from 400HBW abrasion-resistant plate with a Q355 structural body; cutting edges are replaceable bolt-on strips. Standard couplers: S30-180 (1-2 t), S40 (3.5-5 t), S45 (8 t).

Model	Type	Excav. (t)	Width (mm)	Cap. (L)	Weight (kg)	Cutting Edge (mm)	Bottom (mm/steel)	Point (mm/steel)	Side (mm/steel)	Top Beam (mm/steel)	Coupler

Digging buckets are the general-purpose choice. Cable buckets use a narrow, deep profile to open a clean trench in one pass. Grading buckets are wide and shallow with a straight cutting edge for final trim work. Plate thickness, width and capacity are made to order on request.

Skid Steer & Compact Loader Attachments

Sixteen models across seven families, supplied with Bobcat 1140 (big), Bobcat small, ZM602, SMS/Trima or BIG BM couplers. Couplers can be changed on request at the same price tier.

Model	Type	Width (mm)	Weight (kg)	Coupler	Load	Description
BB60-S1140	箱式扫刷	1550	403	Bobcat 1140 (big)	-	155 cm 扫刷, 封闭式, 带山猫大挂钩
BB72-S1140	箱式扫刷	1850	446	Bobcat 1140 (big)	-	185 cm 扫刷, 封闭式, 带山猫大挂钩
BB78-602	箱式扫刷	2000	500	ZM602	-	200 cm 扫刷, 封闭式, 配 ZM602 接口
GBPS36-A	抓斗铲斗	900	201	Bobcat (small)	-	Pro 系列抓斗铲斗, 90 cm, 小山猫接口
FR1-S30-180	松土器	180	31.5	S30-180	-	单齿松土器, 1 吨级
FR2-S40	松土器	-	49	S40	-	单齿松土器, S40 接口
FR3-S45	松土器	-	98	S45	-	单齿松土器, S45 接口
SG20-S40	石块抓具	-	150	S40	-	石块抓具, S40 带连接板
LLB1500-B-SMS	前置整平斗	1500	228	SMS / Trima	-	前置整平斗 1500mm, SMS/Trima 接口
LLB2000-B-602	前置整平斗	2000	305	ZM602	-	前置整平斗 2000mm, 602 接口
P2100-S1140	前置整平斗	2100	346	Bobcat 1140 (big)	-	整平斗 2100mm, 山猫大挂钩
LG1500-S40	刮平梁	1500	150	S40	-	带滚轮刮平梁 1500mm, S40
LG2000-S45	刮平梁	2000	196	S45	-	带滚轮刮平梁 2000mm, S45
14010-2.5T-S1140	托盘叉架	1160	113	Bobcat 1140 (big)	2500 kg forks 100×35×1200mm	货叉架 2.5T, 宽 116cm

Box brooms are hydraulic, with a replaceable polypropylene brush core and a steel catcher box. The Pro-series grapple bucket pairs a 90 cm bucket with a hydraulic thumb. Grading beams carry an integral roller so the operator can level and compact in one pass.

Quick Couplers & Adapters

One carrier, several attachment standards. Our adapters let a Bobcat, ZM602 or Trima/SMS machine run attachments from a different coupler family without buying a second carrier.

Model	Type	Weight (kg)	Interface	Technical data
AD-EURO-S1140	快换转换器	84	Bobcat → Trima/SMS	山猫转 Trima/SMS
AD-602-BIG BM	快换转换器	97	ZM602 → BIG BM	602 转大 BM
AD-602-SSH1140	快换转换器	64	ZM602 → Bobcat big	602 转山猫大挂钩
TS30	倾斜快换	38	S30-180	Axle dia 30 mm, C/C 130 mm, width 110 mm, tilt 26 deg, max 200 bar, G1/4"

The TS30 tilt coupler is semi-automatic locking, 26 degree tilt, 200 bar maximum working pressure, G1/4" hydraulic ports. It fits Bobcat E10, Volvo EC18 and other 1-2 t carriers with an S30/180 mount.

Formwork Plywood • Building Materials

Common sizes 1830 x 915 mm (3' x 6') and 1220 x 2440 mm (4' x 8'). Thickness is made to order; the values below are our standard stock.

Template type	Site name	Adhesive	Thickness (mm)	Reuse (cycles)	Typical application
Bare Wood Plywood	Red Board / 素板红板	Urea-formaldehyde (UF, poor water resistance)	12 / 13 / 14 / 15	3-5	Low-Rise Housing, Self-Built Houses
Film-Faced Plywood (Standard)	Black Film / Brown Film / 黑板	Melamine MR (cold-press resistant)	14 / 15 / 18	8-12	Beams, Slabs
Film-Faced Plywood (High-grade / Fair-faced)	Fair-faced Formwork / 清水覆膜板	WBP phenolic (boil-water resistant)	16 / 18	10-20	Bridges, Basements

Bare board is the low-cost option for low-rise housing and secondary formwork. Standard film-faced board handles beams, slabs and columns in residential buildings. High-grade fair-faced board uses a second hot-press with phenolic film and a WBP adhesive, giving a fair-faced concrete finish for bridges and basements.

Aluminium windows & sanitary ware

Thermal-break aluminium casement windows with 5+12A+5 insulated glazing, priced per square metre. Wall-hung ceramic sanitary ware from the Foshan cluster. Both are project-quantity items — send your schedule and we will quote against it.

Micro-Electronics & Heritage Crafts

Micro-Electronics & Electrical

Inductive and capacitive proximity sensors (M18 / M30), gear motors, roller and conveyor chains, and M12 waterproof connectors to IP67. Datasheets and CE / RoHS certificates supplied with the offer where applicable.

Heritage & Crafts — Preserved Flowers

Real preserved roses, hydrangeas and botanicals in glass domes, acrylic car ornaments, wreaths and hand fans. Glycerin-based preservation, 3-5 year display life, no watering. Naxi cultural artworks are handcrafted in Lijiang, Yunnan.

Phytosanitary requirement

Preserved-flower products are plant-material goods. Depending on the destination country, a phytosanitary certificate, fumigation or heat-treatment record, ISPM15 marked wooden packaging and an import permit may be required. Our team confirms the exact document set for your market before the quotation is issued.
